PROFESSIONAL SUMMARY

Self-driven MERN Stack Developer with practical experience in building responsive and user-friendly web applications. Skilled in transforming design mockups into clean, accessible code with a strong focus on UI/UX, performance optimization, and cross-browser compatibility. Proficient in developing both frontend and backend solutions, integrating databases, and creating secure RESTful APIs to deliver scalable applications.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+), Python, C++

Frontend: React.js, Bootstrap, DOM Manipulation, Responsive Design

Backend: Node.js

Database: MongoDB

Tools & Systems: Git, GitHub, VS Code, Chrome DevTools, Figma (basic)

Other: REST APIs, Debugging, UI/UX Principles, Agile Collaboration

EXPERIENCE

FRONTEND DEVELOPER INTERN

Bahria University Islamabad – July 2024 – Jan 2025

- Developed and maintained the frontend of a Conference Management System using HTML, CSS, and JavaScript, and React.js improving scheduling efficiency for over 200+ users.
- Built responsive UI components and ensured cross-device compatibility using media queries and semantic HTML.
- Collaborated in a team of 4 developers, working with Git version control and delivering features under tight academic timelines.
- Optimized page load performance by 35% through code refactoring and efficient asset bundling.

BACKEND DEVELOPER INTERN

Developers Hub Corporation Islamabad – July 2025 – Present

- Building and maintaining backend services using Node.js and Express.js for scalable web applications.
- Designing and integrating MongoDB databases for efficient data storage and retrieval.
- Implementing RESTful APIs to connect backend services with frontend clients.
- Collaborating with cross-functional teams to ensure seamless deployment and performance optimization.

PROJECTS

Online Food Delivery System - HTML5, CSS3, PHP, MySQL

- Built a dynamic food ordering app with real-time cart updates and JWT-based authentication.

Conference Management System - HTML5, CSS3, JavaScript, React.js

- Developed a responsive web portal for event registration and schedules, improving usability and engagement by 40%.

E-Commerce Web Application - MERN Stack

- Built a full-stack online store with role-based authentication, dynamic product management, and responsive UI using Material UI.

Restaurant Management System - C++

- Console app for restaurant billing and order management using file I/O and basic CRUD operations.

Vending Machine Simulation - C++

- Simulated vending system using OOP concepts, automating inventory tracking and transactions.

EDUCATION

BACHELOR OF SCIENCE IN COMPUTER SCIENCE

BAHRIA UNIVERSITY ISLAMABAD | MAR 2022 - JAN 2026

CERTIFICATIONS

- HTML AND CSS IN DEPTH - COURSERA
- INTRODUCTION TO RELATIONAL DATABASES (RDBMS) - COURSERA
- GOOGLE DATA ANALYTICS CERTIFICATE - COURSERA
- PROGRAMMING FOR EVERYBODY (GETTING STARTED WITH PYTHON) - COURSERA

SOFT SKILLS

- Team Collaboration
- Problem Solving
- Adaptability
- Time Management
- Attention to Detail
